# “Life After The Choking Game” Personal Experiences

Max is 15 years old, star athlete, hockey, football, wrestling he had just received his driving permit and was/is leaning towards aviation as a career path, he gave consent for another child to choke him in the middle of a classroom with staff 3 feet away, he passed out, hit his head on a desk and lost his left eye. This happened 5 days ago. I now realize that this "game" could have had a far more sever outcome.

I have found some comfort in foundations such as yours and I would like to applaud you for your effort. I am a Teacher and therefore I have a forum to get information out, at least in my community.
