“Life After The Choking Game”

Personal Experiences

Michael’s Family’s Loss

There are no words that can describe life after the Game. After the death of our big beautiful son life as we knew it was gone forever. We are left with only memories that instead of comforting us, haunt my family with sadness and despair. Our boy was fool of life. He had goals and aspirations that became ours, and now we are left with nothing. Its been 112 days without hearing our sons laughter or seeing his beautiful face. Its extremely difficult to explain the kind of emotions that our family is having to over come. Life before the death of our son was filled with family activities. Michael was the core of our family, he was involved in community activities he was well liked by all who knew him and brought happiness to all he touched. He loved baseball he was an all star player for many years. He loved going deep sea fishing, bay fishing, and surf fishing. He enjoyed camping out at the beach, and especially playing paintball wars on the weekends with the family.
